

Why You Need DROP™

Loss of Profit – Millions of dollars in needless costs

- Hardware
 1. Primarily CPU Memory and DASD
 2. Database Server
 3. Application Server
 4. Web Server
- Software
 1. Database License Fees (CPU based)
 2. Software License Fees (CPU based)

Loss of Revenue

- Overtime to employees for slower processes, if paid hourly

Hardware Longevity

- New or existing customers will go elsewhere due to performance issues

Overhead Costs

- Our performance service will significantly extend the life of your current hardware (CPU, Memory, DASD)
- Primarily for non-revenue generating applications (HR, Payroll, Benefits, etc.)
 1. If these types of processes run long, that means more expense for applications currently not generating revenue
 2. Wasting human time for processes to finish
